IN THE CLAIMS:

Non-elected claims 8-10 and 18-20 were cancelled without prejudice.

Authorization for this examiner's amendment was given in a telephone interview with Karen Keiser on 05 August 2004.

The following is an examiner's statement of reasons for allowance:

The claims are allowed in view of Applicant's arguments in the response of 02 June 2004 that the prior art failed to provide the motivation to combine its teachings to arrive at the claimed invention. The Examiner acknowledges that he erroneously summarized the claimed subject matter in the introductory paragraph of the obviousness rejection bridging pages 2 and 3 of the Office action of 23 March 2004. However, the body of the obviousness rejection clearly indicated that the Examiner was relying upon the prior art for teachings of interplanting hybrid parents and blending the progeny seed. Nevertheless, the Examiner has found Applicant's arguments regarding the merits of the rejection as a whole persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
